Samuel Giuseppe Mauli

Co-founder & Tech Lead · Software Architect

+55 (47) 99277-0701 samuel.mauli@gmail.com github.com/samuelmauli Curitiba, PR — Brasil

I lead development teams and own product delivery end to end — from the business problem to what actually runs in production. Co-founder of Doublethree and tech lead, with 10 proprietary products live, mobile apps on both stores, and AI running inside the client perimeter.

EXPERIENCE

Co-founder & Tech Lead
2026 — Present

One Way

I lead the team, define the architecture and own delivery. Led the security remediation of the estate (VPN-only, OIDC SSO, forward-auth allowlist) and disaster recovery with defined RPO/RTO and a proven backup restore.

Co-founder & Head of Technology
2024 — Present

Doublethree

I lead the team and own project management end to end. 10 proprietary products live, 4 apps on both stores (React Native and Flutter) and on-premise AI (vLLM, BYOK, ONNX). I also own the infrastructure: VPS, observability and backup with proven PITR (38-min RTO).

Mid-level Developer
2025 — Present

Grupo Negócios Públicos (Vanlink)

Development and architecture of the SGI/CRM platform and two Flutter apps on the stores. Cross-stack backend (PHP, Go, Python, Node) with payment orchestration and AI automation — document extraction cut from 8 min to 10 s per document.

Java & PHP Developer
2024 — 2025

Meisters Solutions

REST APIs in Java (Spring Boot) and PHP (Laravel) for an intercontinental team (Brazil, Mexico, Spain). Python/ML lead with ETL/ELT pipelines in pharma — 40% processing-time reduction.

IT Support Agent
2023 — 2024

Positivo Tecnologia

Backlog triage and management supporting International Meal Company, with ITIL practice and SLA management in a large-scale operation.

Oracle Technical Consultant
2023

TRI CS Inc.

Enterprise integrations with Oracle Integration Cloud (OIC) and BI Publisher reporting on multinational enterprise projects.

N1 Support Technician
2022 — 2023

ICI — Instituto Curitiba de Informática

Technical support for the Curitiba City Hall (software, hardware and network), with ticket documentation and knowledge base.

PROJECTS

- **Licitaqui** Autonomous tender agent with RAG; delivery over WhatsApp.
- **WhatsApp agents** Conversational layer on Meta Cloud API, with LLM.
- **Apportia** Funding intelligence with AI in a BYOK model.
- **Lexis Predict** Predictive judicial provisioning with 100% on-premise AI.
- **OnMe** Corporate mental health with local ML in ONNX.
- **Wave Energia** Subscription-energy app and API on both stores.

STACK

AI / ML
LLMs · RAG · vLLM · BYOK · ONNX · TensorFlow · PyTorch · NLP

LANGUAGES
Java · Python · Go · Rust · PHP · TypeScript · Dart · Swift

MOBILE
React Native · Expo · Flutter · SwiftUI

BACKEND
Spring Boot · NestJS · FastAPI · Laravel · Node.js · Next.js

CLOUD / DEVOPS
AWS · Docker · Kubernetes · CI/CD · Caddy · Prometheus

DATA
PostgreSQL · PostGIS · MySQL · MongoDB · Redis · pgvector

EDUCATION

B.Sc. in Computer Science
Universidade Positivo

2022 — 2026
